2. Proposals must be submitted no later than 10:00 a.m. on May 18, 2018. Faxed submissions will not be accepted. 3. Proposals may be submitted via hand delivery or U.S. Mail (preferably certified).
4. Counties are not responsible for proposals incorrectly addressed or for proposals delivered to any location other than the address specified on the cover sheet of this RFP.
5. For hand delivery on the due date, proposers are to deliver the proposals to the address specified on the cover page of this RFP, Clark County Job & Family Services, 1345 Lagonda Avenue, Building C Lobby. When hand delivering on the due date, proposers should allow sufficient time for traffic delays, accidents, any lobby waiting time, and parking.
6. Submission of a proposal indicates acceptance by the proposer of the conditions contained in this RFP, unless clearly and specifically noted in the proposal submitted and confirmed in the contract between the respective county and the proposer selected.

#### **4. Proposal Review, Scoring, and Contract Award**

Each county will contract on behalf of each CDJFS with the proposer(s) that best demonstrate the ability to meet requirements as specified in this RFP. Proposers will be evaluated based on the capacity and experience demonstrated in their technical and cost proposal. All qualifying proposals will be reviewed and scored by a PRT comprised of representatives for the CDJFSs. Proposers should not assume that the review team members are familiar with any past or current work activities with CDJFSs, County Boards, or any other County agencies. Proposals containing assumptions, lack of detail, poor organization, lack of proofreading, and unnecessary use of self-promotional claims will be evaluated accordingly. PRT members will be required to sign disclosure forms to establish they have no personal or financial interest in the outcome of the proposal review and contractor selection process.

County's selection of proposal(s) for contract will be based on evaluation and grading. Counties reserve the right to reject any and all proposals, in whole or in part, received in response to this request. The PRT may waive minor defects that are not material when the intent is not unreasonably obscured.

##### **4.1. Scoring of Proposals**

In scoring the proposals, CDJFSs will score in three phases. Once proposals enter into Phase I they are considered, for the purposes of this RFP, to be in the "review process."

---

<sup>5</sup> Marked originals must contain all original signatures. Copies made from original signatures will not be accepted.

<sup>6</sup> It is the Proposers affirmative responsibility to ensure that all copies and all formats of the proposal are identical. Any pages or documents omitted from any or all copies can negatively affect the Proposer's score and possibly result in the Proposers disqualification. In the event of any discrepancies or variations between copies, Department is under no obligation to resolve the inconsistencies and may make its scoring and proposal selection decisions accordingly, including the decision to disqualify Proposer.

**Phase I. Review – Initial Qualifying Criteria:**

In order to be fully reviewed and scored, proposals submitted must pass Phase I review. Any “no” for the following Phase I criteria may eliminate the proposal from further consideration:

1. Was the proposal received by the deadline?
2. Did the proposer submit six paper copies and one original copy of their technical proposal?
3. Did proposer submit one electronic copy? (Disregard if requirement is properly waived.)
4. Does the technical proposal include all required certifications and forms required by Section 3.1(A) of the RFP?
5. Does proposer affirmatively indicate that it is not on the federal debarment list, and it is fiscally solvent?
6. Does Department’s review of the Auditor of State and SAM.gov websites verify that proposer is not excluded from contracting with a county?

**Phase II. Review – Criteria for Scoring the Technical and Cost Proposal:**

The PRT will then score qualifying technical and cost proposals not eliminated by the county in Phase I. The PRT will assess how well proposer meets the requirements as specified in Sections 2.6 and 2.7 of this RFP. Using the Technical and Cost Proposal Scoring Sheet for Phase II scoring, the PRT will read, review, and discuss the proposals and reach consensus on the final score for each qualifying proposal.

**Phase III. Review by CDJFS Director and/or County Board:**

See Section 4.3 Final Review.

**4.2. Review Process Caveats**

Counties reserve the right to reject proposals, in whole or in part, received in response to this request. Counties may waive minor defects in the RFP that are not material when no prejudice will result to the rights of any proposer or to the public. Counties may, at their sole discretion, waive minor errors or omissions in proposers’ proposals/forms when those errors do not unreasonably obscure the meaning of the content.

Counties reserve the right to request clarifications from proposers regarding any information in their proposals/forms, and may request such clarification as it deems necessary at any point in the proposal review process. Any such requests for proposal clarification when initiated by counties, and proposers’ verbal or written response to those requests, shall not be considered a violation of the communication prohibitions contained in Section 1.5 of this RFP. Such communications are expressly permitted when initiated by counties, but will be initiated at the sole discretion of counties.

Should a county determine a need for interviewing proposers prior to making a final selection, notwithstanding the fact that no two proposals have received substantially similar scoring in accordance with Section 4.1, counties may exercise their discretion to interview proposers, and results to interview questions shall be scored in a manner similar to the process described in Section 4.1, Scoring of Proposals Phase II Review, above. Such scored results may be either added to those proposers’ proposal scores, or will replace certain criteria scores, at the discretion of the counties. The standards for scoring the interviews and the method used for considering the results of the interviews shall be applied consistently for all proposers participating in the interview process for that RFP.

Counties reserve the right to negotiate with proposers for adjustments to their proposals should counties determine, for any reason, to adjust the scope of the project for which this RFP is released. Such communications are not violations of any communications prohibition, and are expressly permitted when initiated by counties, but are at the sole discretion of the counties.

In County’s sole discretion, any proposer deemed not responsible, or any proposer(s) submitting a proposal deemed non-responsive to the terms of this RFP, shall not be awarded the contract.

#### 4.3. Final Selection

The PRT will make a recommendation to each respective Director to award contract(s) to one or more proposers. Director will make a final selection of contractor(s) to be recommended to their respective county. To make the final selection, Director may consider proposal quality, reasonableness and appropriateness of proposed budget, funding available, and past contract/subgrant performance. Counties maintain the right to accept or reject Director's recommendation.

### 5. Protests

Any potential or actual proposer may file a protest on any matter relating to the process of soliciting and/or reviewing the proposals. Such a protest must comply with the following guidelines:

1. Protests shall be in writing and shall contain the following information:
  - a. The name, address, and telephone number of the protestor;
  - b. The program name and number of the RFP being protested;
  - c. A detailed statement of the legal and factual grounds for the protest, including copies of any relevant documents;
  - d. A request for a ruling by CDJFS;
  - e. A statement as to the form of relief requested from CDJFS; and
  - f. Any other information the protestor believes to be essential to the determination of the factual and legal questions at issue in the written protest;
2. A protest shall be considered timely if received within the following periods:
  - a. A protest based on alleged improprieties or events about which the protestor knew or could have reasonably discovered, prior to the closing date for receipt of proposals, shall be filed no later than the deadline for receipt of proposals.
  - b. If the protest relates to the PRT's or the Director's recommendation to award a contract or to reject any or all proposals, the protest shall be filed no later than 9 a.m. of the seventh (7<sup>th</sup>) calendar day after the issuance of the Letter of Intent to Award the contract or the Letter of Intent to Reject all proposals, whichever is applicable.
3. An untimely protest may be considered by Department if it determines that the protest raises issues significant to Department's procurement system. An untimely protest is one received by Department after the time periods set forth in Item 2 of this section.
4. All protests must be filed at the following location:

**Virginia K. Martycz, Ph.D., Director**  
Clark County Job & Family Services  
1345 Lagonda Avenue, Springfield, Ohio 45503

5. When a timely protest is filed, a contract award shall not proceed until a decision on the protest is issued or the matter is otherwise resolved, unless county determines that a delay will severely disadvantage the county. Proposer(s) who would have been awarded the contract(s) shall be notified of the receipt of the protest.
6. County shall issue written decision on all timely protests and shall notify any provider who filed an untimely protest as to whether or not the protest will be considered.

### 6. Additional Documents and Clauses

#### 6.1. Changes to the RFP

Material changes to this RFP will be provided via the agency website. Proposers are responsible for obtaining any such changes without further notice by county.

## 6.2. Proposal Costs

Costs incurred in the preparation of this proposal are to be borne solely by proposer. Counties will not contribute in any way to the costs of the preparation of the proposal, associated documents, or any other items/documents related to this RFP. Any costs associated with interviews will also be borne by proposer and will not be County's responsibility.

## 6.3. Proposal Submissions as Public Record

Following submission of a proposal, all proposals submitted may become part of the public record. It is the responsibility of the proposer to remove all personal confidential information (such as home addresses and social security numbers) of proposer's staff and/or of any subcontractor and subcontractor staff from the proposal package. Counties reserve the right to disqualify any proposer whose proposal is found to contain personal confidential information. The proposer shall be responsible for any and all information disclosed in the proposal submission and any or all information released by Department in any public records requests.

## 6.4. Contractual Requirements

Any contract/subgrant resulting from the issuance of this RFP is subject to the terms and conditions as provided in the sample contract/subgrant, which can be found on the website dedicated to this RFP.

Payments for any and all services provided pursuant to an awarded contract/subgrant are contingent upon the availability of state and federal funds.

All aspects of the contract/subgrant apply equally to work performed by any and all subcontractors.

Contractor, and any subcontractor(s), will not use or disclose any information made available to them for any purpose other than to fulfill the contractual duties specified in the RFP. Contractor, and any subcontractor(s), agrees to be bound by all of the confidentiality, disclosure and safeguarding requirements of the Ohio Revised Code and the Ohio Department of Job & Family Services, including, but not limited to those stated in the Ohio Revised Code Sections 5101.26, 5101.27, 5101.272, 5101.28, 5160.45, 42 Code of Federal Regulations Sections 431.300 through 431.307 and Ohio Administrative Code Section 5101:1-1-03 and 5160:1-1-01.1. Disclosure of information in a manner not in accordance with all applicable federal and state laws and regulations is deemed a breach of the contract and subject to the imposition of penalties, including, but not limited to, the penalties found in Revised Code Section 5101.99. Contractor must maintain the required insurance coverage throughout the entirety of the contract/subgrant period.

No employee designated in a proposal as "key personnel" or any employee identified as critical to the success of the project can be removed without reasonable notice to county, and replacements will not be made without county approval.

Contractor will establish safeguards to prohibit employees from using their positions for a purpose that is or gives the appearance of being motivated by desire for private gain for themselves or others, particularly those with whom they have family, business or other ties.

## 6.5. Limitations

**The award of a contract(s) is contingent upon the approval of counties. No contract shall be valid and legal until it has been approved and executed, in signature, by each county in accordance with its policies.**

This RFP does not commit counties to award a contract or to pay any cost incurred in the preparation of a proposal. County reserves the right to accept or reject any or all proposals received, to negotiate services and cost with proposers, and to cancel in part or in its entirety this RFP.

Counties will review each proposal with respect to price, proposer's administrative and programmatic capabilities, and conformance to the RFP criteria. Counties may reject all responses if proposed rates are unreasonable or if proposers do not meet the RFP acceptance criteria. All proposals submitted in response to the RFP will become the property of counties.

Proposal selection does not guarantee that a contract for services will be awarded. Counties reserves the right to terminate the negotiation process in the event that negotiations fail with proposer whose proposal is selected and/or issues arise during negotiations that prevent counties from entering into a contract with that proposer. If this happens, Counties, in their sole discretion, reserve the right to: (1) select the next highest rated proposer that responded to the RFP or (2) cancel and/or reissue the RFP.

## 6.6. Compensation Structure

County agrees that reimbursement of all costs will be dependent upon the contractor's/sub-grantee's performance in the delivery of services specified in the approved budget, once the contract/sub-grant agreement is awarded. Payment shall be made by the Clark County Auditor upon proper presentation of request, when approved by Department and the contractor/sub-grantee. Payment shall be made in one of two ways:

1. Direct Cost: Payment shall be made on a direct cost reimbursement basis. Department recognizes only those expenses that have actually occurred; invoices must be submitted as a request for reimbursement of actual cash expenditures. **OR**
2. Unit Cost: Payment shall be made on a unit cost, fee for service, reimbursement basis. The unit cost represents a true measure of the actual cost of providing the contracted number of units of service. Unit cost contractors may be asked to reconcile revenue against the total actual expenditures and reimburse Department for over-budgeted expenses on a quarterly basis.

Proposers must define their preferred payment method in their proposal.

County recognizes only those expenses that have actually occurred; invoices must be submitted as a request for reimbursement of actual cash expenditures. Additionally, the contractor/sub-grantee must submit copies of paid sub-contractor invoices in order to be reimbursed for those service costs.
