

AMENDMENT TO RIDESPLUS TRANSPORTATION PROGRAM RFP# 02-CY15

The following sections of the RFP have been amended as follows:

SECTION I. GENERAL PURPOSE & PROVIDER INFORMATION

1.3 Background Statement

Lack of reliable transportation has been identified as one of the most frequent barriers to both health and self-sufficiency. Many people have difficulty reaching their destinations, especially during evenings and weekends when transit services are not offered. Similarly, destinations in the county or outside of the county areas not served by the transit authority are also difficult to reach.

The purpose of this program is to provide additional transportation options for low-income people and people receiving services through Veteran's Services. This program shall serve as a curb-to-curbdoor-to-door transportation system that will transport low-income people to and from employment, medical appointments, child care, and/or other social service programs.

1.6 Target Population

Customers have a variety of needs for which transportation services are provided through this program:

- Approximately 90% of the customers need transportation to and from medical appointments—mostly to dialysis appointments three times per week;
- Approximately 5% of the customers need transportation to and from employment;
- The remaining 5% of customers need transportation to a variety of other activities, such as child care, or other social service programs.

The Contractor will be responsible for transporting unaccompanied minors when determined necessary by the County. In such instances, the Contractor must have an additional adult on the vehicle in the event that the driver has to exit the vehicle to assist another client.
