

Adult Services Request for Proposals

21-SFY-05

Question and Answers

Q1: Do you want the attachments submitted as a separate file or incorporated into larger narrative? If a separate file, do you want them submitted individually or aggregately as one file labeled "Attachments"?

Our preference is that the attachments are incorporated into the larger narrative of the Technical Proposal. We ask that proposers use the formats for the Technical Proposal and Cost Proposal in Section 3 of the RFP.

Q2: Do we need to provide a current Certificate of Liability (COI) insurance when we submit our proposal?

No, you are only required to complete and turn in the "Certification of Compliance with County Insurance Requirements" form. By completing this form your organization is agreeing that you will and can comply with the insurance requirements. We will need the current COI and Workers' Compensation certificate prior to the contract authorization by the Board of Clark County Commissioners.

Q3: Can we get a copy of the score sheet?

We don't typically provide the score sheet because it would not be useful to potential vendors due to how the questions are weighted. We recommend looking at Section 3 because the score sheet is derived from the information listed in this section.
