

Service Coordination RFP 25-SFY-06
Q&A

Q1: How many families are typically served with Service Coordination in Clark County? How much volume might be expected?

A1: Department cannot accurately provide a typical number served as it can vary greatly, depending on client need. Page 4 of the RFP lists the numbers served over the past couple of years. In 2023, 21 youth were served; in 2024, 14 youth were served, and so far in 2025, 12 youth have been served. There was a gap in services in 2024 which led to a lower number served. A higher number of 33 youth were served in 2022.
